

## SHOES ADVANCE 20 PER CENT

European War, as Usual, is Blamed For the Increase in Price.

Boston, Mass., March 27.—A side-effect of the far-away war that interests every man, woman and child is the announcement of the fact that shoes must this season advance in price.

The generally reported scarcity of leather and increased cost of tanning since the war, combined with an enormously increased demand for leather, all account for the advanced cost of footwear.

Millions of pairs of shoes for the European armies have been and still are being made by American shoe manufacturers. On the average, these army shoes consume one and one-half as much leather as the average American man's shoe.

Knapsacks, saddles, harnesses and other material for the armies at war and a general increase in equipment of the American army and state militia account for a still further demand on the supply of leather.

Munitions plants have called for thousands of feet of leather belting and the general picking of a few trills has started thousands of factories' wheels and greatly augmented the call for belting.

Auto have also made great and increasing inroads into the available leather supply for upholstery.

The latest census reports show that the cattle population has decreased 20 percent in the last 10 years, and the population has increased the same percentage.

Shoes, therefore, are to be more expensive. It is said that the increase for the present will be about 20 percent, but will likely be more by next fall.

## UGH! CALOMEL IS HORRIBLE! IT SHOCKS YOUR LIVER, IF BILIOUS

Calomel sickens! Don't lose a day's work! Clean your Liver and Bowels with "Dodson's Liver Tone."

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, causes it to break into a few drops. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight. Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real life or medicine; entirely vegetable, therefore it can not sicken or make you sick. I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—Advertisement.
